PROCEDINGS

--o0o--

HEARING OFFICER ENGLAND: Good evening everyone. I'd like to thank you for attending tonight and to open this public hearing starting the official record that will be kept by a court reporter.

My name is Sid England, and I am the Environmental Planner with the University of California, Davis, and I'll be conducting the public hearing this evening.

Before we begin, I'll spend a few minutes explaining the purpose of this public hearing and how it will be conducted.

This is the official public hearing on the University of California, Davis, Draft Environmental Impact Record for the proposed project called The Jackson Laboratory, JAX West at UC Davis.

This hearing is being conducted pursuant to the University of California's procedures for implementation of the California Environmental Quality Act. The purpose of the hearing is to provide the public with an opportunity to present oral testimony for the official record concerning the content and completeness of the Draft Environmental Impact Report for the proposed Jackson Laboratory project at UC Davis.
This Draft EIR addresses the project-specific and cumulative impacts associated with the proposed project.

The Draft EIR for the Jackson Laboratory project at UC Davis incorporates by reference the analysis in the Environmental Impact Report for the 1994 UC Davis Long Range Development Plan as amended. Amendments to the Long Range Development Plan are summarized in the Jackson Laboratory project at UC Davis Project EIR.

The California Environmental Quality Act and guidelines for implementing this act encourage the use of incorporation by reference to reduce the size of EIR's. Thus, the Draft EIR for the Jackson Laboratory project at UC Davis should be viewed in conjunction with the 1994 UC Davis Long Range Development Plan and EIR as amended.

Copies of the Draft EIR for the Jackson Laboratory project at UC Davis, the Draft and Final EIR's for the 1994 UC Davis Long Range Development Plan, and documents that amend the LRDP EIR are available at the sign-up table. I ask that you do not remove these materials from the room so that they may be shared by all who are in attendance tonight.

Copies of the public notice for the project and maps illustrating the location of the proposed projects also are available at the sign-up table.
All comments made tonight will be recorded by
the court reporter and will become part of the formal
record. The record of this hearing will be used by the
University of California to review when considering the
Final Environmental Impact Report and the approval of the
project.

All testimony this evening, as well as all
written comments received during the public comment
period, will become part of the Final Environmental
Impact Report for the project. The campus will evaluate
comments received on environmental issues and will
include written responses to these comments in the Final
EIR.

Those of you who do not wish to speak tonight or
who wish to add additional testimony may submit your
comments in writing. Written comments must be received
by 5:00 p.m. on February 12th, 2001, in order to be
officially considered as part of the record. All written
comments should be sent to the Vice Chancellor in the
Office of Resource Management and Planning at UC Davis.
The date and address where comments should be submitted
are available in leaflets at the sign-up table in the
back.

Copies of the Jackson Laboratory project EIR at
UC Davis Draft EIR, the 1994 Long Range Development Plan
and EIR, and amending documents are available at the Yolo County Library in Davis, the Vacaville Public Library in Vacaville, and on the Internet.

Copies can also be obtained at the Office of Resource Management and Planning at UC Davis.

Information where to obtain copies of these are in the same flyer on the table at the back of the room.

I encourage speakers who agree with previous speakers to simply confirm their agreement in order to reduce repetition.

Everyone who wishes to speak will be allowed to speak. Anyone that would like to speak should come to the front of the room after I finish my introduction.

The purpose of the hearing is to receive testimony and evidence for the University of California. Therefore, I will not respond to testimony tonight, but formal responses to written or oral comments on the Environmental Impact Report and environmental issues will be included in the Final EIR.

I will gladly answer all procedural questions about the hearing. If there are any procedural questions right now I'll be more than happy to answer them.

(NO RESPONSE.)

HEARING OFFICER ENGLAND: Seeing none, if anybody would like to comment this evening, please
introduce yourself and come forward.

(NO RESPONSE.)

HEARING OFFICER ENGLAND: Seeing nobody right now, I will recess the hearing and we'll wait a little longer in case anybody arrives late.

Thank you.

(Thereupon there was a brief recess.)

HEARING OFFICER ENGLAND: I'm going to go ahead and continue the public hearing. If there is anybody that would like to make a statement, please come forward.

(NO RESPONSE.)

HEARING OFFICER ENGLAND: Seeing nobody, I'll close this public hearing. Thank you very much.

(Thereupon the foregoing was concluded at 7:22 p.m.)
CERTIFICATE OF CERTIFIED SHORTHAND REPORTER

I, DORIS M. BAILEY, a Certified Shorthand Reporter and Registered Professional Reporter, in and for the State of California, do hereby certify that I am a disinterested person herein; that I reported the foregoing proceedings in shorthand writing; and thereafter caused my shorthand writing to be transcribed by computer.

I further certify that I am not of counsel or attorney for any of the parties to said proceedings, nor in any way interested in the outcome of said proceedings.

IN WITNESS WHEREOF, I have hereunto set my hand as a Certified Shorthand Reporter and Registered Professional Reporter on the 30th day of January, 2001.
