Project Title: Campus Wastewater Treatment Plant Expansion

Project Location (include county): University of California, Davis; Solano & Yolo Counties

Project Description:

The project involves expansion of specific modular components of the campus' wastewater treatment plant to meet campus demands for treatment capacity anticipated through 2013. The current WWTP has capacity to treat an average daily flow of 2.7 million gallons per day (mgd), and the expansion would allow for an average treatment of 3.8 mgd. The expansion would also improve treatment reliability and the plant's ability to meet current and anticipated future effluent regulatory requirements.

This is to advise that the University of California has approved the above described project on November 17, 2005 and has made the following determinations regarding the above described project:
