

WASTE

UC Davis is going zero waste by 2020. This means that at least 95% of typical waste will be recycled or otherwise diverted from the landfill. Pledge to take action on campus!

TAKE ACTION!

I pledge to...

- Take the time to learn how to correctly sort my waste at the waste bins; I will carefully sort my trash to help the campus reach its zero waste goal.
- Reduce my paper use and buy recycled content office supplies.
- Pack my own zero waste lunch when I bring lunch to campus. For tips, visit: sustainability.ucdavis.edu/action/eat_well.
