

# WATER

Conserving water is critical in California. Since 2000, the campus has reduced water use by 22%. Help UC Davis continue the trend. Pledge to take action on campus!

# TAKE ACTION!

I pledge to...

- Tightly turn off faucets when I am not using the water, and not leave water running while I am brushing my teeth, washing dishes in the breakroom, or lathering up.
- Report campus leaks, broken fixtures and irrigation spray heads, and other water waste to Facilities Management by calling (530) 752-1655 or by emailing [om-customers@ad3.ucdavis.edu](mailto:om-customers@ad3.ucdavis.edu).
- Rinse my labware with consecutive “fills and dumps” instead of running water so that I will not waste water in my lab.
